NATUREMILL ANNOUNCES THE NORTH AMERICAN DEALER PROGRAM

San Francisco, CA, March 1, 2006-- NatureMill, Inc. announces The North American Dealer Program with established relationships in the top ten U.S. and Canadian markets. Interested dealers are welcome to apply for distribution of the NatureMill 5100 series indoor home composters.

“We are excited to expand our distribution of the NatureMill indoor composters. Through our new North American Dealer Program, we are confident that one day everyone will compost in their home,” says Russ Cohn, founder and president of NatureMill, Inc.

The NatureMill composters allow ordinary home users to turn food waste into compost fertilizer, reducing landfill trash and resultant greenhouse gas emissions, while returning valuable organic nutrients to the soil.

Millions of people already compost in their backyard using a variety of do-it-yourself means. Unfortunately, these techniques are susceptible to raccoons, cold weather, and general lack of time or commitment on behalf of mainstream consumers.

NatureMill automates and miniaturizes the composting process, such that anyone can compost in the comfort of their kitchen.
